# SUNSHADE CANOPY SYSTEMS

Columbus Awning Sunshade Louvers are some of the most versatile aluminum sunshade options available on the market. The passive sun control products can be used to manage the impact of solar gain on any building and integrate seamlessly with the design elements desired. The custom options deliver the most flexibility in the field to meet the aesthetic and budget required. Louvered types and sizes include airfoil blade, shutter blade, aluminum bar and tube, half tube or round. We offer a true custom design and turnkey solution to general contractors all over the U.S.
